Why The Grill Paddle?

2018 Marketingedge Magazine Top Product Winner!

The numbers are in and it's true, The Grill Paddle has been a runaway success. Our Canadian made Cedar grill cleaning tools not only effectively replace dangerous wire BBQ cleaning tools, but they also make the perfect promotional item.

Options

Available in 2 sizes, both with optional bottle opener attachments, and a minimum of just 10 units. The Grill Paddle is designed to fit most any budget.

Why Cedar, Why Canadian?

With our complete Canadian manufacturing you can be assured of quality and delivery. We use only the best hand selected Canadian Cedar for our paddles. Cedar contains natural oils that provide exceptional rot and mildew resistance, but more importantly anti-microbial properties.

The Competition

Imitation is the highest form of flattery, so we designed The Grill Paddle to be superior in every way, right from the start.

Basswood or Pine: cheap, with no rot resistance. Tests have shown that Basswood begins to mildew with less than a month of use.

Bamboo, Oak, or Maple: Too hard to form the deep custom grooves that make The Grill Paddle an effective cleaning tool.

Why Belt Buckles?

The Custom Pewter Belt buckle is a time tested way to add a little swagger to your promotional needs. Each buckle is hand crafted to meet the highest quality standards in logo reproduction and fit and finish.

Why Keychains?

Cast metal keychains are one of the best ways to ensure product exposure. Handy additions such as bottle openers and multi tools mean that your clients will find their keychain useful and relevant for many years to come, and they will see it every time they use their keys. This winning combination ensures maximum bang for your promotional dollar.

Why Ornaments?

Custom Christmas ornaments are a fantastic way to promote your event or cause. We manufacture them in cast metal as well as digital back printed acrylic. Perfect for creating a collectable series or for a one-time special function.

Why Coins?

Custom challenge coins are small custom insignias that are designed for and carried by members of an organization to be revealed when challenged by other members, or face the prospect of buying a round upon failure to produce. They build camaraderie and team morale in a way that few other promotional products can. They are commonly traded and collected, and can be enhanced with intricate 3D designs, colourfill, and even gemstones.
